

EZCast LAN

User's Manual

Rev. 1.01

Introduction

Thanks for choosing EZCastproducts, it is based on popular EZCast app. It provides Multimedia files streaming, PDF/Office Viewer, Web browser and many WiFi display standards like Miracast, DLNA and AirPlay. It also embedded 10M/100M Ethernet, which will provide stable connection and easier setup steps. The new EZChannel feature allows you to store/edit your favorite cloud channels, start to enjoy all the new features now!

Hardware Installation

There will be an HDMI cable and USB adapter inside of the box, use the 5V-1A DC adapter to power up EZCast LAN box, and plug HDMI cable into HDMI port. We also suggest connect RJ-45 port with your router to simplify setup procedures and get stable connection.

LED Indication

There will be 3 different LED color for different status, you can refer to it to know the working status:

Red: WiFi failed and No Ethernet connection

Purple-Blue: Wifi standby/working ok

Cyan: WiFi and Ethernet both working without problem.

App Installation

IOS and Android users:

Please search "EZCast" in Apple's App Store or Google Play and install it.

Or Use the QR scanner app to scan the QR code on EZCastLAN's main page.

*Supports iOS8 and Android 5.0 above

Windows and Mac OS users:

Please download it from our official website: www.iezcast.com or www.iezvu.com

*Supports from Windows 7/8.1, and Mac OS 10.9 and after.

Get Started(ex: Android version)

Enter your NB/PC/Smartphone/Tablet's WiFi setting, find the SSID (EZLAN_xxxxxxx) and connect with it.

Open EZCast app on your device.

There are several icons in the first page: Normal mode, EZChannel, Demo&Help, and EZCast Screen receiver.

Normal mode

EZChannel

Demo&Help

EZCast Screen

App Tips

You can cast your multimedia data wirelessly now, however, please be noted some features like cloud video or web will require internet connection.

You can enter Setting to setup the internet connection with your home router or connect RJ-45* LAN cable directly ([*only available on EZCast LAN product](#))

You will need to bind your device with EZChannel to get more contents shared by your friends.

Please be noted EZMirror(Miracast) mode will disconnect current WiFi and you will need to connect to internet by your phone (3G or WiFi) if you want to keep internet surfing.

App Features

Photo

You will have to allow EZCast Pro to share your camera roll and enable the location service before using Photo function.

In Photo viewer, you can select photo and it will be displayed on your TV/Projector. You can also use gesture control to zoom in/out or change photos.

We developed a practical Sketch tool, you can draw on the photo you picked, and save it if you like.

Video

There are 2 sources to video streaming. One is to sync the video you like through iTunes (iTunes File Syncing), or you can select video from your recorded video (Camera Roll)

Please be noted iOS will compress the recorded video before streaming to save the bandwidth, you can decide if you want to save it in EZCast Pro app for future use.

You can also sync subtitle file to EZCast Pro, just make sure the file name is the same with your video and sync through iTunes, it will be automatically shown with video playing.

* We support mainstream video formats.

For subtitle, we support srt, smi, ssa and cdg formats with UTF-8 coding.

For subtitle support, please see demo video: <http://goo.gl/0yq5Z8>

Music

The music player allows you to stream music through WiFi, and we can support playlist.

* Please be noted EZCast Pro can't access your iTunes music library due to iOS limitation, so you must use iTunes to sync the audio you like to our app.

Live Camera

Live camera is a real object camera which allows you to stream the image from mobile device's camera, and take a snap shot to edit.

You can adjust image quality, switch from Front/Rear camera. You can enable Sketch and save the current image to album.

Document

The document viewer can support MS-office, PDF, and Apple's iWorks.

Before you start to cast, please remember to sync the document files to your iOS device through iTunes.

The document viewer supports sketch as well, that means you can make some note on the document, and save the page to

cameraroll.

* Please be noted some documents may not be displayed the same as shown on PC.

Web

EZCast Pro comes with a built-in browser, and we also categorize several popular websites for you.

The web page will dynamically change with different country setting in your device.

Sketch function is also supported.

CloudVideo

Cloud video is a short cut for all major web video sites, you can link to Youtube, Vimeo and other on-line video sites with the existing shortcuts.

Cloud Storage

We will link to your personal Dropbox and *Google Drive account to let you access your cloud storage anywhere. All content will be shown for you to download and display.

You can enable sketch function if you download and decode a document file

Comment

We treasure your feedback either good or bad, so we created

an innovative way to communicate with you. You can send some comments, suggestions or even bugs to us directly, and all the inputs will make our product better.

Radio

We've built in more than 1000+ radio stations in the radio function, you can enjoy any kind of music you like!

Setting

In setting function, you can setup EZCastPro device's configurations including output resolution, change SSID password, setup router connection for internet surfing, boot up mode priority and update the latest FW over the air.

3G/4G mode: EZCast can support connection through your mobile phone's 3G/4G mode, click the button to enable 3G/4G connection.

Follow the instructions to use it

EZChannel

Once you enter EZChannel, you can enjoy default featured channel, public channel or your friend's channel. Please be noted some features will require logging in.

You can subscribe your channel here, review your playlists(collections) or install Chrome plug-in in the setting.

Shopping

We developed a new on-line hardware shopping site, you can buy different hardware models here.

*Please be noted the on-line stores may vary based on different territories, for most countries we will re-direct to our local distributors due to import taxes and regulations.

DLNA DMR

DLNA is an industrial standard which allows you to stream multimedia formats through WiFi/LAN

In the main menu, you can also use DMLA app to push

multimediafiles to EZCast Pro for streaming.

EZMirror(Miracast, this is only available for Windows and Android)

EZMirror is fully compatible with Miracast, you can click theEZMirror button in EZCast app, and the receiver will be switchedto Miracast

mode.

Once you turn it on, there will be a 60seconds countdown for yourmobile phone to connect with the receiver. Please select yourMiracast function in your mobile phone setting page.

We also recommend you link your smart phone to your homenetwork at the same time to keep internet connection.

Apps

There are 3 games in the Apps, including Liar's Dice, BlackJack and Texas Hold'em. Enjoy the party games with your family or friends now!

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body

本產品符合國家通訊傳播委員會(NCC)之規範：

低功率電波輻射性電機管理辦法

第十二條經型式認證合格之低功率射頻電機，非經許可，公司、商號或使用者均不得擅自變

更頻率、加大功率或變更原設計之特性及功能。

第十四條低功率射頻電機之使用不得影響飛航安全及干擾合法通信；經發現有干擾現象時，應改善至無干擾時方得繼續使用。前項合法通信，指依電信法規定作業之無線電通信。低功率射頻電機須忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾。
